

Monitoring Speeding In Middlewich

King Street and Warmingham Lane

January 2018 to June 2023

Monitoring Speeding In Middlewich

Most towns including Middlewich there is a perception of speeding. This was discussed by residents in the local MTC Town Council meetings on many occasions in the past

Consequently, it was decided to purchase two Vehicle-activated signs (VAS), or Speed Indicator Devices (SID's) to be placed on specific roads, namely Warmingham Lane and King Street where residents and the Council believed there were major concerns.

The two were purchased from TWM based in Winsford, who after calibration at thirty miles per hour installed them at the required locations in 2018

The added benefit to advise motorist of the speed they were traveling at was to record actual speeds and traffic loading on a daily basis, over hourly intervals

With data now available, from 2018 to present day, the Town Council have decided to re-position the SID's to other 'Hot Spots' in the town.

MTC registered this request recently and in both asking for the SID's to be-sited. Town Council wishes to collaborate with CEC the information from the data collected, which is in this presentation. The Council is willing to hold any discussions with CEC to find a way forward

The Town Council is asking CEC Highways the process for carrying out this request and potential timescale
